FEATURED MODEL **VERSALIFT VTL-135-F**

With up to 13.5 meters of working height and up to 8.4 meters of lateral outreach this really is the perfect van mounted platform for electrical contractors and high level motorway maintenance work. The 420° turret rotation allows you to position the MEWP cage exactly where you need to work.

The information provided is for guidance only. It may change at any time in accordance with manufacturer's specification.
